Care & Maintenance

RATTAN CARE

- Rattan furniture is so popular due to being very low maintenance. With this being said, it is still strongly encouraged that you look after your furniture with the occasional upkeep.
- At the start of the season, we recommend cleaning the rattan pieces with warm, soapy water. You can use a cloth or a soft-bristle brush with gentle pressure. Once you have finished, wash off any residue with clean water from the garden hose.
- Allow the furniture to dry in the sun before adding on the cushions and putting your feet up.
- When moving your furniture, do not drag them across your patio. This can damage the feet as well as your patio. Only pick the rattan up by the solid frame, not by the more flexible rattan areas.
- For optimum rattan protection we recommend a protective cover is used all year round or for the furniture to be stored away when not in use.

CUSHION CARE

- Whilst the cushions are showerproof, it is advised not to leave them out in the rain as this can make them dirty. When the furniture is not in use, cushions should be stored in a cool, dry place. Do not leave cushions on the furniture if using a garden protective cover.
- To avoid any stains on your cushion cases, clean up any spills immediately with a damp cloth. If your cushions start to look dirty or marked, remove the cushion filling and hand wash the cushion case in warm, soapy water. Do not use bleach.
- We all have a favourite furniture, so it is important to keep all cushions in rotation to ensure equal usage. Swapping cushions between furniture will provide even wear on the cushions.
