CARE INSTRUCTIONS:

- The aluminium side wall panel framework is incredibly low maintenance and is resistant to UV rays, salt water, frost and snow and requires only basic care to keep it clean. To clean, simply use a soft cloth that is damp with warm soapy water and wipe down.
- After cleaning, rinse the area thoroughly with clean water to remove any soap residue, then dry it completely with a soft cloth to prevent water spots.
- Do not use harsh chemicals, bleach, solvent-based products, or acidic cleaners, as they may damage the coating or finish.
- Avoid using hard brushes, scouring pads, or abrasive cleaners, as these can scratch or dull the finish.
- Regularly remove dust, dirt, and debris to prevent build-up and potential staining.
- Periodically check and tighten the fixings on the panel to keep the side wall stable.
