FURNITURE CARE

When moving your furniture, do not drag it across your patio. This can damage the feet of your furniture as well as your patio. Only pick the furniture up by the solid frame.

Whilst the cushions are showerproof, it is advised not to leave them out in the rain as this can make them dirty. When the set is not in use, cushions should be stored in a cool, dry place. Do not leave cushions on the furniture if using a garden protective cover.

To avoid any stains on your cushion cases, clean up any spills immediately with a damp cloth. If your cushions start to look dirty or marked, remove the cushion filling and hand-wash the cushion case in warm, soapy water. Do not use bleach.

ALUMINIUM CARE

The aluminium framework is incredibly low maintenance and is resistant to UV rays, salt water, frost and snow and requires only basic care to keep it clean. To clean, simply use a soft cloth that is damp with warm soapy water and wipe down. Allow the furniture to dry in the sun before adding on the cushions and putting your feet up.
